

Here are a few tips I have learned (merely suggestions)

(1.)

I would love to give a great testimonial to Mark Hamilton, his Neothink Society, his literature, and the TVP political movement. Mark Hamilton is a visionary like me who when focused can accomplish great and wonderful things. He is dedicated as I am to the cause and wants to try and bring it about. He only wants the best for Mankind as I do, yet it takes great effort and courage to bring it forward, to materialize it. I appreciate his stepping up to the plate as so many others have not and only complain and try to tear down, mouth off and destroy with no good intentions at all. He is a good man trying to make a positive difference with his organization as I always try and do even though not perfect yet.

His Neothink Society will be a great force to the world and everything in it. His literature is amazing and breakthrough with cutting-edge information and ideas which will take you to higher levels and beyond in the plateaus of life. His growing TVP political movement will be a breath of fresh air that if brought about will do tremendous good on a level that has never been done and seen since the Christ era. One can only imagine the benefits of everlasting life with happiness and material riches above anything seen before by most people. His movement believes that there is nothing beyond our comprehension and understanding and will try and explain everything in a rational way. God bless TVP and thanks.

(2.)

Mark Hamilton, his literature, and his Neothink Society will be a very valuable asset. All of this represents honesty and purity and is indistinguishable. Mark Hamilton is a visionary like me who has been blessed with wisdom and foresight to bring about wonderful conditions that most people will enjoy. His knowledge as mine will get rid of all dishonesty and negative hate. It will improve Mankind to the highest levels possible so we can enjoy our universe and beyond with beings that have existed before us and have a blissful journey and exquisite delight. Mark Hamilton as I am willing to sacrifice and step up to the plate with unmovable dedication and determination and uncowardice that will face any foe which is incomprehensible and fathomable by the majority of people because not everyone is a visionary, teacher and leader. Mark Hamilton as I am are self directed not directed by others wills that have a calling to fulfill and a purpose that when engaged and released will be a force to reckon with and have unassailable walls of knowledge and wisdom that is unmatched. Thanks again. This is my second testimonial.

The Twelve Visions Party as well as Mark Hamilton could be a platform from which unfathomable goodness could come from if brought about and forward. If Mark Hamilton or I were stopped or hampered it would mean eternal hopelessness and dire conditions which most people do not want. So it is very hard if not impossible to stop this because of having universal adaptability and cosmic fortitude which must prevail and be brought about which is currently and have already been made know to us earthly creatures and beyond. There is an outcry for this and justice because of all the bad things that have already been done in the universe and beyond. But things have a way of straightening themselves out just by universal inertia, cunning, attrition and integrity as will be demonstrated. This is my most important testimonial to date with more to come if necessary. We the leaders as vessels from which goodness will sprout forth will be dubious and appreciated and loved. Sometimes good things can eventually be brought about by bad things and be even better and stronger than if nothing had gone wrong in the first place and which will be even more powerful and uncalculating, inculcating and resilient. This is my second testimonial to date. Thanks again Mark Hamilton and your wonderful organization.

L.V.J.

(3.)

I have submitting my “like-drive” for this important video,

[Held Back for 3000 Years, Now Revealed,](#)

Mark Hamilton’s Prime Law,

Now! One shouldn’t fear the future and what it must bring because the future is necessary, for without it there would be no tomorrow and inadvertently no past. One shouldn’t be constrained to the present norm if it is not correct, no matter how permanent it might seem now and how real it is within our lives. The Prime Law is only purity in its fullest sense. It is only honesty and being honest with yourself. Under an imperfect system there will never truly be equality. There will always be someone being left out but not under a perfect system such a thing would not occur. Even if you’re not the one being left out now!, you must admit that such a thing is only fair and in the best interest for everyone. I’m not saying that wanting to have a lot is bad; I’m just saying that everyone deserves an honest try at it if you will. Everyone deserves an equal shot at life to say the least. Deep down you know I’m right. No one should be left out that deserves a chance, and you shouldn’t be afraid to voice that even if other people know that you’re the one saying it. One shouldn’t be afraid just to study something just because some people might not agree with it. It’s just like having a conversation or exchanging ideas with someone or having a dialog. It’s not like your swearing your life to it; it’s just taking an honest look at it. You shouldn’t be ashamed of just studying something because you still have your free will at the end to decide what you want to do with your life. By exposing yourself to it, it’s exposing itself to you as well and your point of view. So, in the end both sides have been informed about each other’s view. Both sides are “touched” if you will, and one shouldn’t be ashamed of that, just taking a look at something. What are you afraid of? What doesn’t kill you makes you stronger. Just ride the wave so to speak to its conclusion and see what you think. One shouldn’t be so narrow minded afraid to try new things; and who knows you may just like it better or it may be better for you. Don’t be afraid to take things to the conclusion because who wants to live forever if you’re not even going to be happy. It’s not about quantity but it’s about quality, and who knows you may just get both in the end. Let all knowledge propagate throughout the universe and beyond. You can complement each other and provide what the other one is missing, fill in the gaps so to speak. Neothink is a good spacial anomaly that demands respect even if you’re not going to follow it. You can still benefit from it even if it’s only bits and pieces of it that you’re going to absorb and make use of or assimilate. This is my third testimonial to date.
